Usage

Disposable product.

Do not use in case of damaged package.

Read carefully all the information and warnings before using the product. Make sure that it is free from defects or imperfections and suitable for the intended use. Keep the packaging to ensure the traceability of product information. For information or requests, please contact quality@brentasrl.com. The chemical protection values were obtained in laboratory conditions and do not reflect the effective duration of protection in real conditions of use which may decrease if the gloves are damaged and / or worn or if the substance is used in a mixture. For corrosive substances, degradation may be the most important factor to consider when choosing protective gloves. Contact with aggressive chemicals other than those certified must be evaluated in advance. Declaration of conformity available on the website www.brentasrl.com.
